

## **Color Code for Revisions – 2026 SWMM Update**

Significant Change Required for Permit – Table 10.1

Significant Changes for ECY Review – Table 10.2

Updated Language to Add Additional Guidance to Meet Ecology's Intent – proposed language is not a significant change but is related to determining MRs or implementing BMPs. These made add additional guidance and are based upon questions from applicants/internal folks over time. It is not why something is required language that would be purple. – These will be part of cover letter – did not think they were significant enough to go into Table 10.2.

Updated/Removed/Added language for clarity, consistency, readability. Language does not change MR implementation. Sometimes this is changes is grammar for clarity.

Grammar/Punctuation/Typos

New Language – Not Part of Permit Compliance

Item Has Not Been Updated – TO DO
